

Batch Internet Eligibility Test Transaction Instructions For ASC X12N 270/271 (004010X092A1) Submissions

INTRODUCTION

Testing the 270 4010A1 Eligibility Transaction is **mandatory**. This document contains all the information needed by a provider or vendor (submitter) to prepare, submit and evaluate a test transaction. The test data on the following pages must be used in order to test the 4010A1 format of the 270/271 Eligibility transaction. The successful completion of this test transaction is **mandatory**. Once completed, the Batch Internet Eligibility application will be available to submit production 270 Eligibility Inquiry Batch transactions.

WHY THE TEST TRANSACTION IS NEEDED

The Medi-Cal Companion Guide and the ASC X12N 270/271 Implementation Guide (004010X02A1) define how to create the structure and the content of the 270 Eligibility Inquiry transaction. Each submitter needs to know how to create valid transactions; therefore, Medi-Cal requires that each submitter test for structure and content (the basic common data elements). Each submitter will need to pass this test successfully, which may require several iterations of the test before a successful response is returned.

PREPARATION OF THE TEST TRANSACTION

You will need to create a test transaction (within an Interchange Envelope) that consists of:

- One information source (Medi-Cal).
- One information receiver (you, the provider or vendor).
- 12 subscriber loops.

Use the provided sample values for provider ID number and subscriber ID number, but replace the ISA02, ISA06 and GS02 values with your own unique Medi-Cal values. Complete the transaction with values defined in the Medi-Cal Companion Guide and the ASC X12N 270/271 Implementation Guide, values in the example given, or with any appropriate values.

Required 270 Eligibility Inquiry Test Data

Data Element Information	Reference ID	Value
SubmtrID / SoftwVersNum	ISA02 ***	0020001 (+ 3 spaces)
Submitter PIN/Password	ISA04 ***	(10 spaces)
Submitter ID Number	ISA06 ***	XXX999999 (+ 6 spaces)
Usage Indicator (P or T)	ISA15	T
Application Sender ID Nmbr	GS02 ***	XXX999999 (+ 6 spaces)
Provider Number	Receiver NM109	PROV00029
Provider Reference ID	Receiver REF01	4A
Provider PIN	Receiver REF02	2450117
Subscriber ID Number	Subscriber NM109	ABCDEFG01-12 (1/Subsc)
Subscriber Birth Date	DMG02	19500201
Subscriber Issue Date	First DTP03	20050401
Subscriber Service Date	Second DTP03	20050407
# of Included Segments	SE01	104

*** In the test transaction you send to Medi-Cal:

- Enter your own Submitter ID/software version number in ISA02.
- Enter your own Submitter ID number in ISA06 and GS02.
- Leave ISA04 blank – no Submitter PIN/Password is required for the test transaction.

The Submitter ID number entered in this transaction must match the User ID number entered to access the Medi-Cal Web site; otherwise, the transaction will be rejected.

The test transaction can be created using any plain text editor, such as Microsoft® Notepad, which was used in the example below. For your convenience, a close-up view of this test transaction is provided on page 12 of this document and is described in more detail.

The image shows a Microsoft Notepad window titled "ProvTest6.00.txt - Notepad". The content of the window is a single, extremely long line of text representing a transaction script. The text is composed of various command codes, parameters, and data fields, typical of a database or system test script. It includes numerous references to tables (e.g., NM1, IL1), columns (e.g., P1, S1, D8), and specific values (e.g., 1234501, 1234503, 1234504). The script appears to be a complex sequence of insertions, updates, and deletions across multiple tables, likely used for validating system behavior under specific conditions. The code is highly technical and serves as a detailed example of how to construct a test transaction.

SUBMISSION (UPLOAD) OF THE TEST TRANSACTION

1. To upload and submit the test transaction, visit the Medi-Cal Batch Internet Eligibility **testing** Web site at <https://sysdev.medi-cal.ca.gov/Eligibility/login.asp>.
2. Enter your User ID number (same number that was entered in ISA06) and Password, then click "Submit".

5. Click "Browse" to search your directory. Select the 270 test transaction file you want to upload to Medi-Cal. Click "Upload File".

California Home | Site Help | Site Map Friday, May 20, 2005

Welcome to California

Upload 270 File

You are logged in as:

Enter file name to upload

Use the Browse button to select the file name from your PC.
After selecting the file, click on the Upload File button to upload the file to Medi-Cal.

Note: If a button labeled "Browse..." does not appear, then your browser may not support file upload.

For faster uploads, compress your files using PKZIP or WINZIP.
Upload file size is limited to 2 Mb. If your input file exceeds this size it will not be accepted by Medi-Cal.

Choose file

```

When the TA1 response is displayed, the TA1 column contains the TA1 acknowledgement.

If an "R" is returned in the TA1, then the test transaction was rejected (failed the initial validations) and "Download" will display in the TA1 column. This file contains the TA1 Acknowledgment. **You will need to correct the test transaction and resubmit it until an "A" is returned in the TA1.**

If an "A" is returned in the TA1, then the test transaction passed the TA1 validations, but if there is a "Download" in the 997 column then the test transaction was rejected at this level of validation and "Download" will display in the 997 column. This file contains the 997 acknowledgment. **You will need to correct the test transaction and resubmit it until an "A" is returned in the TA1 and there is no 997 acknowledgment.**

When an "A" is returned in the TA1 and there is no "Download" in the 997 column, then no other files will be available until the next day when the 271 response will arrive.

Below is an example of a TA1 acknowledgement from an accepted test transaction (TA104 = A). Since the test transaction is accepted (with no 997 acknowledgment), there will be a 271 response the next day on the Inquiry/Download 271 File screen.

ISA*00*	*00*	*ZZ*610442	*ZZ*XXX999999	*0
50520*1300*U*00401*000200419*0*T*~^TA1*200419			*050524*1030*A*000^IEA*	
1*000200419^				

Refer to the *ASC X12N 270/271 Implementation Guide* or the *Medi-Cal TA1 and 997 Acknowledgement Error Resolution Process* for assistance with how to use the TA1 or 997 acknowledgements to resolve transaction errors.

3. After a successful test transaction is submitted, locate your Volser Number (200419 for this example) on the Inquiry/Download 271 File page. If the "Download" link is available in the "271 Response" column, the 271 response is now available. Click "Download" to review and download the file, which contains the Medi-Cal eligibility response to the test transaction.

If any “AAA” error segments appear in the response, you will need to correct the test transaction and resubmit it until it is successful. Refer to the [271 Eligibility Response Transaction AAA Segment Error Resolution Process](#) document for help on how to resolve AAA transaction errors.

- Once the above message is received and the test transaction is successful, the Batch Internet Eligibility application is available to submit 270 Eligibility Inquiry Batch transactions in the production environment.

To submit 270 Eligibility Inquiry Batch transactions, visit the Medi-Cal Web site at <https://www.medi-cal.ca.gov/Eligibility/Login.asp>.
